

Print Bottle Labels **FAST**

PREDICT recommends both the Dymo Labelwriter 400 and the Dymo Labelwriter 400 Turbo for printing sample bottle labels.

The PREDICT web reporting system has the ability to download and print bottle labels based on SPID (sample point ID number). You can select to print all SPID's in an area, or only selected equipment in an area. Just check the boxes, select your labels and printer, and let the DYMO LABELWRITER complete the job for you. No more waiting, this will print 40 LABELS PER MINUTE!

This tiny printer fits anywhere on your desk and makes labels in seconds from your PC or Mac. Every LabelWriter includes free software plus prints directly from your favorite programs.

Predict's Internet reporting system supports label printing via the Dymo 400. See the example below !

- Dymo Labelwriter (2.125" x 4.0") Recommended label #: #30256/#30323/#99014
- Avery 5160 (1" x 2.63")
- Avery 5161 (1" x 4")
- Avery 5162 (1.33" x 4")
- Predict 2x6 Sheet for Laserjet Printer
- Predict 2x6 Sheet for alternate Laserjet Printer [click [here](#) for a blank sheet in Laserjet Format]
